Highly purified
hydrogen peroxide for
bio-decontamination

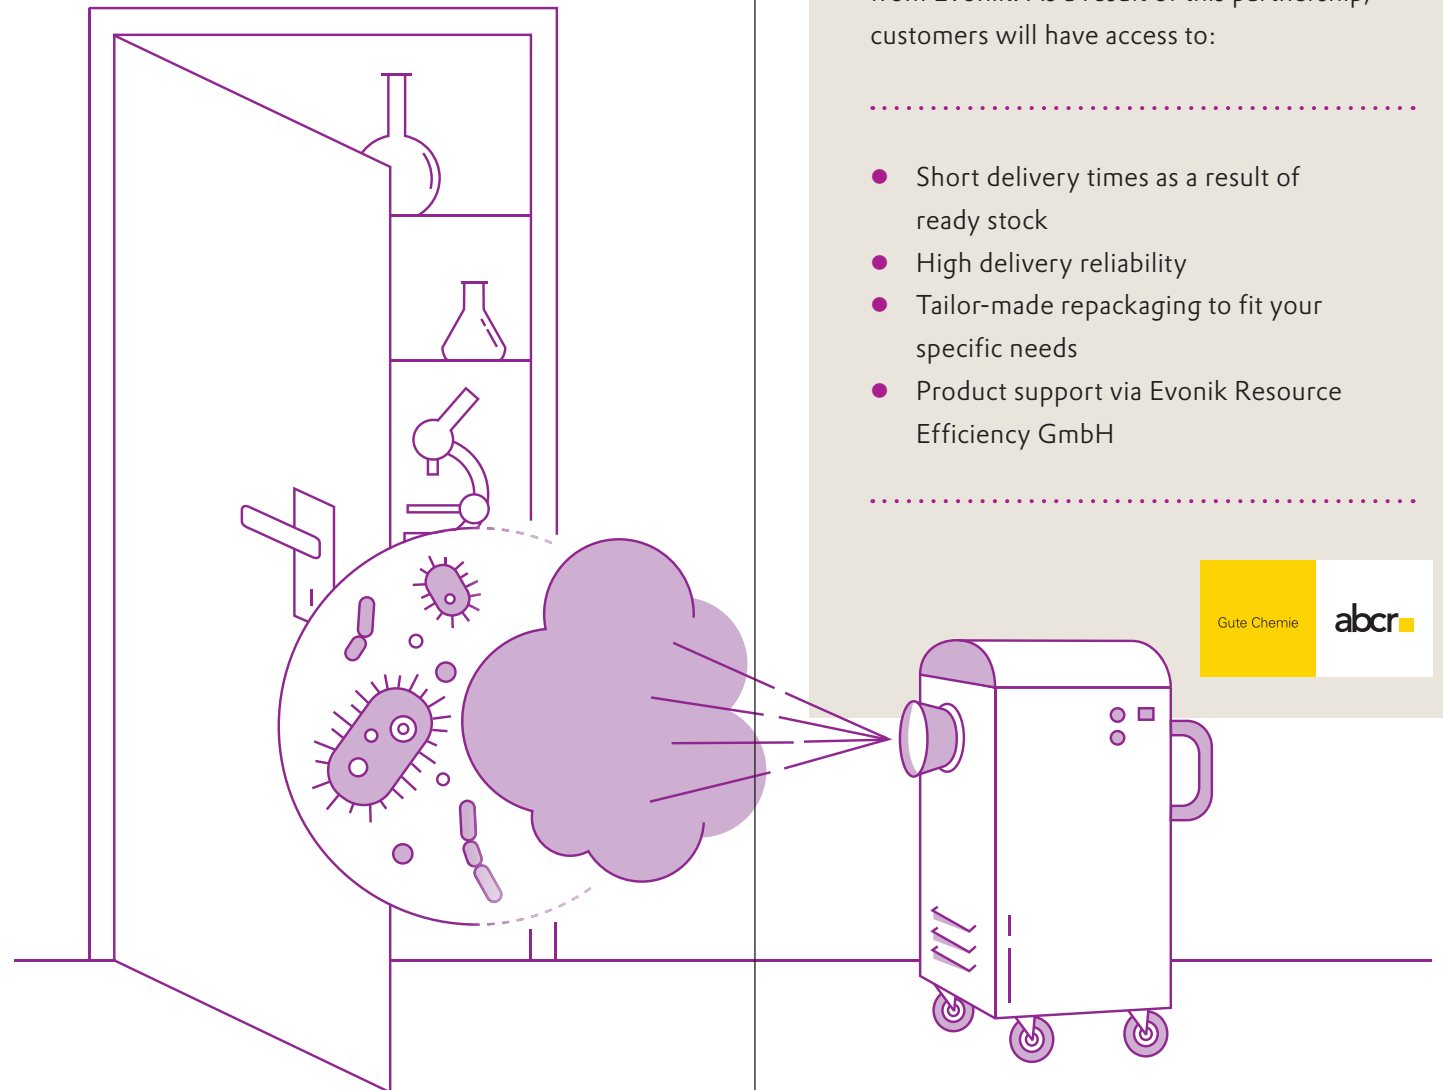

THE FITTING PRODUCT ... FOR THE PROPER PROCESS.

Bio-decontamination of surfaces and rooms contaminated with microorganisms is an essential process in diverse industries.

To achieve a sterile and clean environment in these settings, **Vaporized Hydrogen Peroxide (VHP)** is an effective and safe technology that is commonly applied. Evonik offers a specialty grade of highly purified hydrogen peroxide that has been formulated for application in VHP process.

It can be used directly with no additional modifications required and is suitable for the decontamination of:

- Pharmaceutical and other facilities
- Hospital, surgical and laboratory rooms
- Instrument manufacturing
- Equipment
- Biological safety cabinets
- Isolators
- Material airlocks
- Pass-through chambers
- Emergency vehicles

RELIABLY AVAILABLE ... FOR OUR CUSTOMERS.

abcr GmbH is now the small quantity distribution partner for high purity hydrogen peroxide from Evonik. As a result of this partnership, customers will have access to:

- Short delivery times as a result of ready stock
- High delivery reliability
- Tailor-made repackaging to fit your specific needs
- Product support via Evonik Resource Efficiency GmbH
